I went, thinking there would be very low at such a meeting, but to my sur-prise, I found the room where we hold our excreises quite full. On account of so great a number being present, we had a prayer meeting, and I never saw the power of God more striking-ly demonstrated. When the invitation was was given out for all the e deirons of becoming Christians and who wished the prayers of God's people to signify it by rising up, it seemed as though every one in this reom stood upon his feet. I was very happy but when I happened to formabout and see three of my brother officers standing up to be prayed for, then my poor heart was too full for atterance; but I said within myself, "Give God the praise."

LOVING WORDS

The following incident shows both the power of loving words and incomer over children, and the power of children to move their parents; A Sumlay school missionary once visited a Garman insidel community in New York, and went from house to house in the endeavor to vin the percents over to establishing a Subbath school. But in vain. He was leaving the place districtions, when he met a taughing group of children. He joined them. By a familiar and pleasant manner he excited quite an interest in the Subbath school; and, as a tonsequence, the objections of the parents were removed, a school was started, and in one single rear's thus every eligible child in the place was brought directly under Sunday rehoof influence A church has been established there as the result, which has gathered thirty into its commo rion from the population around.

After viewing the Fort, the party conbarked of board the Fanny and visited the Santee. Returning thence, they write convoyed by the Perry to the Long Wharf, and from there proceeded to the Aquidneck House. An inspection of the Naval Academy, the witnessing a drill of the "Middies" and the disension of a good dimur, tilled up the time notil near nightful when the guests again cought the decks of the Percy. A call at Portsmouth Grove on the return trip, was down in the programme, but whether the lateness of the hour of departure from Newport permitted its not being carried out, we are uninformed. Mr. Classe was accompanied by his dangelter Miss Kate Class. Owing to other engagements, Gon. Botler was on able to join the party.

RAMEDAN MATTERS.—The good people of the neighboring cities of Eall River, New Hedford and Taunton seem considerably stirred up regarding the lately consummated arrangement, between the Old Colony and Nowport road and the Bay State company, and characterist ballions and commutation have been freely ninde. Both the New Bedferd Mercacy and Standard seem particularly exercised on the subject, and in the columns of the latter journal we find the following:
